

Manufacturers of Cutting Edge Abrasives

COMPANY PROFILE

Santek Industrial Abrasives is a South African based manufacturer of coated speciality abrasives and converter of coated commodity products.

Our products are of the highest quality, manufactured using the best materials available for the application.

Santek was formed in 2001, concentrating on developing and manufacturing coated products to rival all competitors in both the local and international markets.

Our products, quality, services and prices are highly competitive both locally and internationally.

We are renowned in our industry for our quick lead times as well as our competitive prices, and pride ourselves on our good service delivery as well as on the quality of product that we produce.

WHAT DO WE OFFER?

Santek offers the full range of abrasive products regardless of your application or industry. Our range includes coated abrasives, coated speciality abrasives, bonded abrasives, bonded thin wheels, non-woven abrasives, mops and buffs, abrasive compounds as well as super abrasives.

As the only local producer of many of our products we also offer the unique service of custom designed products for our customer's individual needs and preferences. Volumes warranted, we are willing to deviate from our standard product range and produce a product specifically for your unique requirements.

We also offer a conversion service to all who wish to have their own raw materials converted under their own brands.

Our product range includes:

- Narrow belts (coated and non-woven).
- Wide belts (coated and non-woven).
- Coated discs.
- Velcro and PSA discs, strips, rolls, deltas and shapes.
- Flap discs (coated and non-woven).
- Flange mounted flap wheels
- Spindle mounted flap wheels
- Spindle mounted Non-Woven flap wheels and interleaved wheels.
- Large bore Non-Woven flap wheels and interleaved wheels.
- Fan wheels.
- Flutter discs, sanding stars, Vonnegut brushes, slashed rolls, propeller discs.
- Spiral bands, no-lap sleeves, body cones.
- Diamond Websters, Naumkeug caps.
- Quick change discs.

- Sheets.
 - Custom rolls, Conversion rolls (coated and non-woven).
 - Floor sanding.
 - Fiber discs.
 - Cartridge Rolls.
 - Non-Woven Satin finishing wheels.
 - Clean and strip.
 - Bonded vitrified wheels, segments and bricks.
 - Bonded Cutting and grinding discs.
 - Unitized and Convolute wheels.
 - Mops, Buffs and polish.
- And much, much more.**

WHY SANTEK?

We at Santek pride ourselves on quick, efficient, reliable, consistent service. We are a customer driven company. Customer service, cost efficiency, innovative thinking, product quality, quality consistency and our good ethical reputation are our primary focus.

We constantly strive to better ourselves and our products. A significant portion of our time as well as budget is spent on improving and streamlining production methods as well as innovative product development. We aim to offer our customers the most reliable, time efficient, cost effective solution to all their grinding, sanding, polishing and finishing needs.

Santek is a proud South African producer. Thereby creating much needed jobs for South Africans and supporting our local economy as well as local manufacturing.
